## LETTER OF RECOMMENDATION

I'm pleased to write this recommendation in favour of Mr. P Pavan Kumar, who had reported to me at ITC Infotech PVT. Ltd. I do have an experience of more than 14 years providing IT solutions in multiple domains like Banking/Sales and Marketing. Pavan had joined our organisation as a BI Consultant did well in a very short span of time. He was quick at understanding the work requirements from the client and delivered multiple Business needs in the BI tool like Power BI with Implementing multiple Machine Learning Model in Supervised and Unsupervised Learning.

In addition, he directly interacted with Data Science team from onshore countries for gathering technical requirements and providing the required solutions in a timely manner. He worked on building Extraction, Transforming and Loading job flows using SSIS and using SQL views for data migration from one business to another entity due to acquisitions. After noticing his growing improvements, quick optimization of historic code and exhibition of emotional maturity.

Good inter-personal skills along with a curious mindset to learn about new things were his core strengths. He often conducted Knowledge Exchange sessions for understanding the new AI/ML solutions available in the Market to provide business needs.

Pavan Kumar would be an asset at your prestigious institution. I'm confident that he'll excel at the endeavors he takes up even post his master's program and I do wish him all the very best.

Please feel free to contact me if required further information and discussion.

Sincerely,

Haritha Kunchakuri
